## **Wto Accession and Socio-Economic Development in China (Chandos Asian Studies Series)**

Although several different factors in fruits and vegetables probably act jointly, the epidemiological and biochemical evidence indicates an important role for vitamin C. Supplementation with antioxidants is associated with a decrease in the percentage of cells with chromosome aberrations, and with beneficial effect in smokers. Vitamin C at high concentrations seems to be toxic to cancer cells in vitro. These concentrations can be achieved in plasma only by intravenous administration.

## **Church-State Cooperation Without Domination**

Prison Statistics Iran.
