Furries: An Easter Story

I say that the so called mainstream science suffers from the safe predicament of all human beings: that is has a set of laws like a church, and that it uses absence of evidence as factual absence and because of that it fails to move fast. Demand for digital marketers has never been stronger, and will only get bigger.

Zhiyi thought that persons had varying epistemological capabilities, which put them on different levels of knowledge. When we fall back on these secular answers, a fissure develops in our ontology: we fall away from our being-in-God, for a religious question is engagement and a secular answer is mere technique.
