In the United States, under federal anti-discrimination laws such as the Americans with Disabilities Act color vision deficiencies have not been found to constitute a disability that triggers protection from workplace discrimination. The book also contains an introduction which details the gradual development from experimental and 'stunt' flying of the early aviators, through the aerial artistry of using smoke to highlight manoeuvres and tied-together formation aerobatics, to the introduction of jet teams after the war. During these seven and a half months, he spent a good deal of time at Mombasa. The potty humor is going away as they're growing. He hoped to convert it to an aerial sprayer, but the plane would not fly due to the landing gear problem.
